EDUCATION

Parul University

Bachelor of Technology in Computer Science (AI & Data Science)

Class 10+2 (CBSE) — ST Jagat Gyan Public School, Ranchi | Class 10 (ICSE) — Madonna English School

Vadodara, Gujarat | June 2024 – August 2028

CGPA: 7.80

EXPERIENCE

Zetheta Algorithms Private Limited

Risk Dashboard Developer (Project-based Internship)

Remote | Jan 2026 – April 2026

- Debugged** data pipeline bottlenecks using log analysis, reducing processing time by 40%.
- Built and deployed** REST APIs to stream real-time financial data into interactive risk dashboards.
- Developed** Python automation scripts for quantitative risk analysis, cutting manual analysis time by 50%.
- Collaborated** with data science and product teams to implement dashboard features from specifications.

PROJECTS

Systemic Risk Network Analysis & Contagion Simulation

Technologies: Python, Data Structures, Graph Theory, Network Centrality Algorithms

Jan 2026

- Built** a Python simulation using graph theory algorithms to evaluate financial risk networks.
- Analyzed** interdependencies between financial nodes to trace contagion pathways and root causes of failure.
- Debugged and optimized** graph algorithms to process large-scale datasets across 500+ data models.

Streamlit-Based Financial Analytics Platform

Technologies: Python, REST APIs, Streamlit, Backend Development

Feb 2026

- Developed** an interactive web platform using Streamlit and REST APIs for trading strategy evaluation.
- Integrated** dynamic portfolio filtering and correlation heatmaps to visualize complex financial data.
- Fixed** API connectivity issues and data synchronization errors, maintaining 99% platform uptime.

PrepTrackAI – Full-Stack Placement Preparation Platform

Technologies: React, TypeScript, Node.js, Express.js, MongoDB, REST APIs, JWT

March 2026

- Built** a full-stack placement preparation platform using React, TypeScript, Node.js, Express, and MongoDB.
- Designed** REST APIs and implemented JWT authentication for secure user management and study session tracking.
- Integrated** interactive analytics dashboards to track coding practice, interview progress, and study goals.

TECHNICAL SKILLS

Programming Languages	Java, Python, C++, C, TypeScript, JavaScript
Core Computer Science	Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating Systems, DBMS, Computer Networks, System Design
Backend & Web Technologies	Node.js, Express.js, React, MongoDB, REST APIs, JWT, Streamlit
Developer Tools	Git, GitHub, Linux, VS Code, Postman, Jupyter Notebook

ACHIEVEMENTS

- Hackathon Prototype:** Resolved critical bugs under tight deadlines during 24-hour Hackathon 6.0 to deliver a working prototype.
- Academic Performance:** Achieved a 95% score in AI coursework, ranking in the top 5% of the class.
- Workflow Automation:** Automated reporting workflows in projects, reducing manual support requests by 35%.
- Application Speed:** Improved overall application speed by 30% through targeted code refactoring and optimization.
