EDUCATION

Parul University, Vadodara — Vadodara, Gujarat

B.Tech in Computer Science (AI & Data Science) | CGPA: 7.85 | Jan 2024 – Dec 2028

Class 10+2 (CBSE) | ST Jagat Gyan Public School, Ranchi

Class 10 (ICSE) | Madonna English School

EXPERIENCE

Risk Dashboard Developer (Project-based Internship)

Zetheta Algorithms Private Limited | Remote | Jan 2026 – Present

- Developed a quantitative risk dashboard evaluating trading strategies using Sharpe Ratio, correlation metrics, and interactive filtering
- Reduced data processing time by 40% via optimized dashboard architecture
- Increased application speed by 30% through targeted code optimization

PROJECTS

Systemic Risk Network Analysis & Contagion Simulation – Sep 2025

- Built a Python-based systemic risk simulation using graph theory to analyze financial contagion and identify systemically important banks
- Applied network centrality measures to rank institutions by systemic influence

Streamlit-Based Financial Analytics Platform – Dec 2025

- Built an interactive quantitative risk dashboard for real-time evaluation of trading strategies
- Implemented Sharpe Ratio analysis, correlation heatmaps, and dynamic portfolio filtering

Automated Backend Environment Setup & Execution Pipeline – Feb 2026

- Designed and deployed a modular backend project with automated dependency management
- Improved environment reproducibility and onboarding speed for development teams

ACHIEVEMENTS AND RESPONSIBILITIES

- Built a functional software prototype during a 24-hour Hackathon 6.0
- Reduced data processing time by 40% via optimized risk dashboards
- Increased application speed by 30% through code optimization
- Completed AI course with 95% score, ranking in the top 5% of class
- Collaborated on a project that delivered 500+ data models

SKILLS

Proficient: Python, Data Structures, Graph Theory, Financial Analytics, Risk Modelling, Streamlit

Comfortable: C, C++, Java, Machine Learning, Backend Development, REST APIs

Tools & Platforms: GitHub, VS Code, LeetCode, Jupyter Notebook, Linux

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration, Communication
